

Fasina P K - 211443

Create a Student management system using the Spring MVC framework.

A screenshot of a web browser window showing a form titled "Add New Student". The form has three input fields: "Name" with the value "fasina pk", "Age" with the value "24", and "Rollno" with the value "30". Below the input fields is a "Save" button. The browser's address bar shows the URL "localhost:8080/StudentManagementSystem/studentform".

Student List

Id	Name	Age	Rollno	Edit	Delete
1	Fasina	24	21	Edit	Delete
2	Ammu	23	22	Edit	Delete
3	Fasi	24	26	Edit	Delete
5	fasina pk	24	30	Edit	Delete
